

MOUNT LITERA ZEE SCHOOL, JOKA

SESSION: 2020-2021

Circular: JOKA/ACAD/020/034

30<sup>th</sup> July, 2020.

Dear Parents,

Greetings from Mount Litera Zee School, Joka!

We as an organisation have always valued the cooperation and contribution of the parents in the holistic development of our students. Given the current context, a good rapport between the school and the parents is the need of the hour.

To supplement the excellent effort provided by the parents, we have prepared some useful tips to help you guide your ward in reading and math practice to reinforce learning.

Guidelines for developing reading habit:

- The best way to encourage children to read is by setting an example to them. Read at your leisure and the same interest will grow in them.
- Let children choose what they want to read, be it a story book, newspaper or comics.
- Have a special reading corner at home to warm up children for the reading activity.
- Include reading time in their daily routine.

Guidelines for Mathematics reinforcement:

- For reinforcing concept of counting colourful and attractive toys can be used.
- Take the help of matchsticks to teach Roman Numbers.
- Make use of daily use objects like: computer, table, utensils to reinforce concept of geometrical shapes.
- Addition and subtraction can be further practised with the help of coins.

We are hopeful our synergy will be benefit and facilitate our students' learning process.

Regards,

MLZS, JOKA.
